

JOB TITLE:	Plant Operator
COMPANY:	Didion Milling, Inc.
LOCATION:	Johnson Creek, WI
REPORTS TO:	Location Manger

POSITION DESCRIPTION:

The Plant Operator is an entry-level position responsible for operating and troubleshooting production equipment in the Johnson Creek soy bean processing plant. Individuals in this role will be trained on food grade practices and Good Manufacturing Practices (GMP's) while cross-training on other departmental positions, expectations and responsibilities to fill positions as needed.

RESPONSIBILITIES:

Duties may include, but not limited to, safe performance of duties, assisting other millers and performing routine operational and maintenance activities, and notifying management of need for equipment repairs. Specific responsibilities include:

- Individuals will be trained to perform detailed and technical operation duties, such as plant start up and shut down of production equipment.
- Monitor and tune production equipment.
- Take product samples, perform quality testing, and grade to ensure they meet product specifications.
- Bulk receiving of products and loading bulk trailers efficiently.
- Ability to detect discrepancies and troubleshoot production equipment as needed, and notifying manager concerning the need for repairs or additions to operating systems.
- Assist and perform repairs and preventive maintenance of production equipment.
- Assist other departments in completing daily activities as needed.
- Be a leader in safety and following the Good Manufacturing Practices of the company.
- Must be able to work fluctuating shifts and schedules as required.

REQUIREMENTS:

To qualify for this position, an individual must possess any combination of experience and education that would likely produce the desired job outcomes. Specific requirements include:

- High School Graduate or General Education Degree (GED). Prior related experience is preferred but will train the right motivated individuals.
- Ability to read, write and speak English fluently.
- Effective written and oral communication skills.
- Follow all safety procedures at all times to prevent injuries and damage to equipment or facility.
- Ability to work aloft including ladders, man lifts, equipment tops and scaffolding.
- Ability to safely operate vehicles with a manual gearbox.
- Reliable transportation to respond to off duty calls as needed.
